Stakeholder:
- Define pest problem
- Identify pest management solution
- Request assistance from IR-4

The Process Starts with Requests
Submitted from:
- Growers
- Grower groups
- State/federal research and extension personnel

Request reviewed by Manufacturer and EPA

Requests Prioritized
Top priorities researched that year.
Second priorities researched as money allows.

Field and Lab Research
- Measure Residue levels in Crops
- Top Priorities completed in 30 months

Use is added to the label

Tolerance (MRL) Established by EPA

Data Submitted to EPA
